Registering for Self-Managed Remote Access

Self-Managed Remote Access allows users who register with an institutional e-mail address to easily access Clinical Pharmacology powered by ClinicalKey when not on their institution’s network. The instructions below outline how to activate remote access.

For Institutional Users with a User Profile/Personal Account

1. Click **Login** at the top of Clinical Pharmacology powered by ClinicalKey homepage.

2. From the Login page, click the link under **Remote Access**.

3. Enter the institutional email address associated with your user profile and click **Continue**. Clinical Pharmacology powered by ClinicalKey displays an activation message and sends you a confirmation email.

4. Click on the link within the confirmation email to **Activate Remote Access**.

For additional information about Self Managed Remote Access, please review our FAQs on ClinicalKey’s Help page. From this link you may also contact our **E-Helpdesk Technical Support Team** should you have any questions or require assistance.
For Institutional Users without a User Profile/Personal Account

1. Go to [www.ClinicalKey.com/pharmacology](http://www.ClinicalKey.com/pharmacology) and click Register in the top right corner.
